PROFILE

Hi, I'm Danish Saleem

A software engineer looking to pursue a successful career in the software development industry, where I can help in the delivery of state-of-the-art software solutions. My experience includes coding, troubleshooting, and testing for some of the projects I did.

EMPLOYMENT HISTORY

Software Engineer Intern, University of South Asia, Lahore

FEBRUARY 2022

Responsibilities I'm performing as an associate software engineer include:

- Researching, investigating and fixing a wide range of technical issues related to student portal and data
- Managing the University's existing database
- Write optimized SQL queries for daily reporting tasks

EDUCATION

Bachelor of Science in Computer Science, Virtual University of Pakistan, Lahore

NOVEMBER 2015 – OCTOBER 2020

I had a 3.23 CGPA in my undergraduate degree. My final year project was a web-based application named Online Auto Mechanic Finder which was developed using HTML, CSS, JavaScript, PHP and MySQL
